The Group will obtain the individual's consent prior to collecting their sensitive information.

4. **Why does the Group collect the information and what if I don't provide it?**

Prospective Tenants and Tenants

The primary purpose of collection of personal information from ***prospective tenants*** is to consider your suitability as a tenant and, once accepted, to prepare the necessary documentation for you to become a tenant. If you do not provide the required information, the Group will not be able to assess your suitability as a tenant at one of our shopping centres.

The primary purpose of collection of personal information from ***tenants*** is to administer your lease with the Group. The information may be used within the Group, for example, for the purposes of collecting rent, monitoring receivables, our financial reporting and valuation of our properties. If you do not provide this information, we will not be able to properly administer your lease, for example, by acknowledging that your rent has been paid.

Where the Group collects information from tenants and prospective tenants the information may be used for:

- the purposes of particular transactions involving the tenant or prospective tenant;
- monitoring a tenant's compliance with their lease and performance within the relevant shopping centre; or
- identifying other potential leasing or general commercial opportunities the Group considers may be of interest to that tenant or prospective tenant.

Investors

The primary purpose of collection of personal information from ***investors*** is to comply with laws (particularly the *Corporations Act 2001* (Cth)) and to assist investors in meeting their taxation requirements. We also collect personal information for the purpose of making distributions in the most cost effective way and to assist the Group to communicate with investors (including direct marketing communications as set out below) or deal with any concerns they may have. If you do not provide the requested information, the Group will not be able to inform you of important information concerning your investment or pay you the distribution you are entitled to. We may also need to deduct from your distribution more tax than we otherwise would if you had registered your TFN with Link.

By collecting this information, the Group is complying with its obligations under its Constitutions, ASIC's regulatory guides and various laws, and our internal compliance reporting requirements.

Employees

The primary purpose of collection of personal information from ***employees*** is to establish records and systems to enable the Group to pay you and review your performance, and so that the Group ensures the safety of its employees, and others.

Workers

The primary purpose of collection of personal information from ***potential employees and contractors*** is to assess the suitability of applicants for the role offered and, in the case of contractors who are individuals, establishing records and systems to enable the Group to pay you and review your performance. If you do not provide the requested information, the Group will not be able to assess your suitability for any offered role within the Group. For contractors who are individuals, if you do not provide the requested information, the Group may not be able to pay you, or may have to deduct greater amounts than would otherwise be necessary for tax purposes.

If an individual's employment application is unsuccessful, the Group may retain the information about that individual in case a more appropriate opportunity becomes available. Applicants may request that the Group not retain this information.

Visitors

In circumstances where we collect personal information from ***visitors***, including through our third party providers, the primary purpose of our collection of that information is in connection with the management and security of the Group's shopping centre sites, to measure customer demographics and behaviours, to improve our shopping centres, to allow us to inform you of events, activities and

promotions and otherwise in connection with our business. Generally speaking, you are not obligated to provide us with personal information. If you do not provide a third party provider with your personal information that third party may not be able to provide you with relevant products and/or services.

Generally

The Group may be required to hold this information for at least 7 years. Where the Group is no longer required to keep the personal information or no longer needs it, it will take reasonable steps to destroy the personal information or de-identify it.

5. How information is collected

The Group will collect personal information directly from the individual concerned, unless it is unreasonable or impractical to do so.

The Group may also collect information in particular circumstances from an individual's agent or from governmental sources. In those circumstances, if necessary, the Group will take reasonable steps to inform the individual that the collection has occurred and will provide any other relevant information about that collection required by the Privacy Act.

Personal information is generally collected:

- in respect of **tenants**: directly from the tenant or prospective tenant through a tenant application, an "intention to lease" (**ITL**) document or similar, or from our contracted service providers during the course of the tenancy. Occasionally, we may collect information from a third party, such as in circumstances where a third party makes a complaint about a tenant;
- in respect of **investors**: directly from the investor by the relevant investor updating their information on-line, or as a result of the investor making a complaint to the Group. We also collect personal information from Link where an investor updates their information by sending a hardcopy form to Link or over the phone with Link;
- in respect of **workers**: directly from the prospective employee or individual contractor, including where individuals submit applications or register interest for employment with the Group, or, where the employee comes through a recruiter, from the recruiter. The Group may also collect information from referees in relation to prospective employees;
- in respect of **visitors**: through our third party service providers, including where individuals interact with certain technologies at our shopping centre sites.

6. Unsolicited information

Where the Group receives unsolicited information, for example from an individual who wishes to become an employee, tenant or investor, the Group will treat the information as if it had collected it directly from the individual.

If the Group receives information it could not lawfully collect itself, it will destroy that information or ensure that it is de-identified where lawful and reasonable to do so.
